

1-sql injection 2-stored xss

Go to http://www.target.com/sign_in

In login form

Try to input (') symbol in username&pass

Click login we got the following:

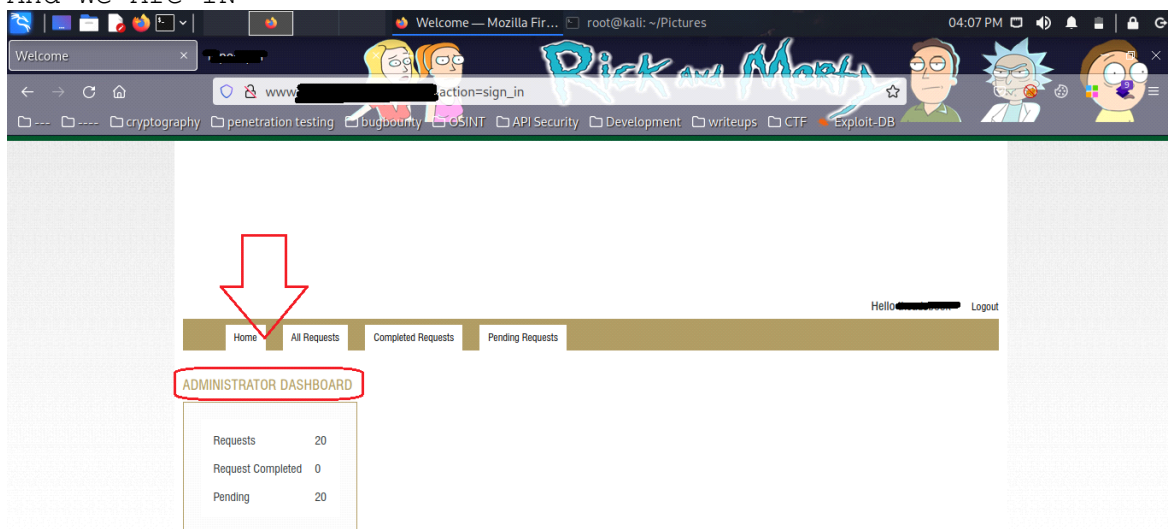

Then try to login with first user in DB by fixing the query

Used this payload in:

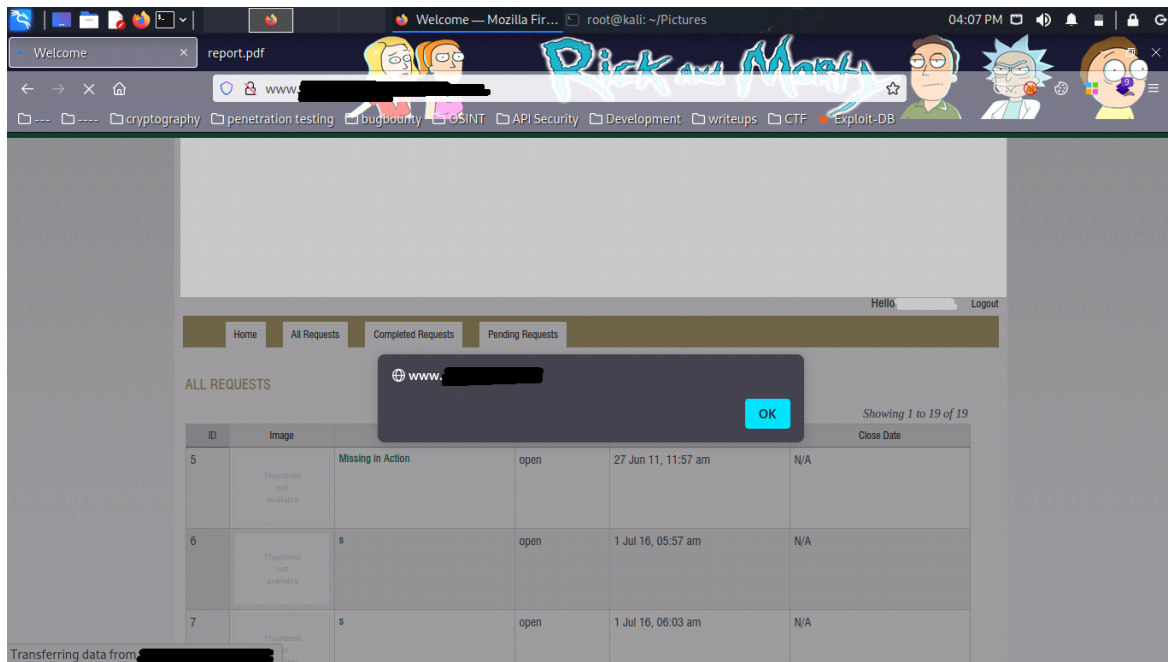

username: 'or'q'='q

password: ' or ('1')=('1

And We Are IN

Stored XSS in title form
payload: hunter"><script>alert()</script>//

Thank U For Reading
(Hunter)
