1-sql injection 2-stored xss
Go to http://www.target.com/sign_in
In login form
Try to input (') symbol in username&pass
Click login we got the follwing:

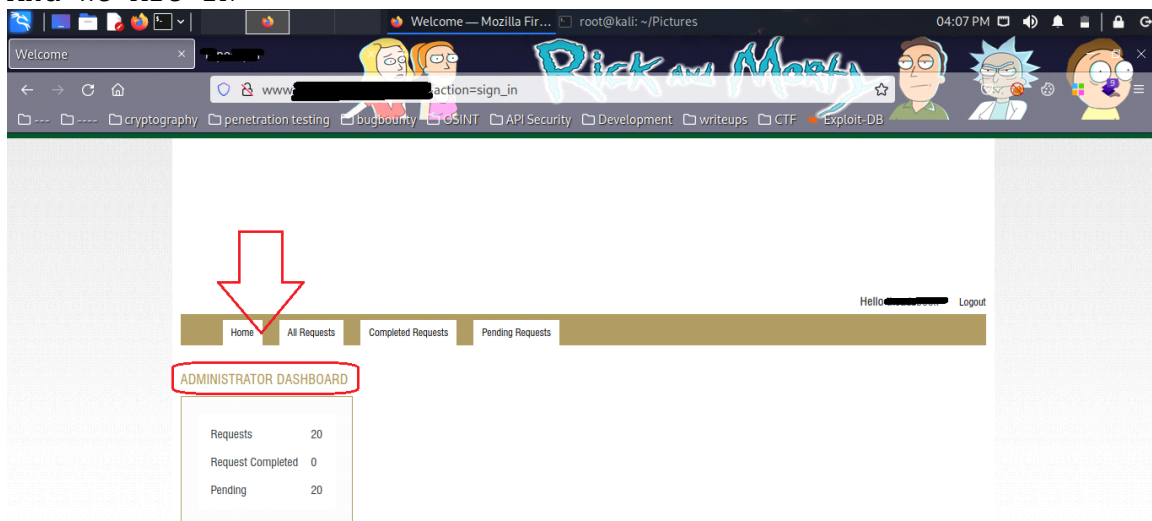

Then try to login with first user in DB by fixing the quary
Used this payload in:
username: 'or'q'='q
password: ') or ('1')=('1
And We Are IN

Stored XSS title form in Administrator Dashboard

Thank U For Reading
